

**STATE OF LOUISIANA  
LOSS PREVENTION POLICY STATEMENT**

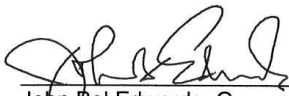

As Governor of the State of Louisiana, I am committed to providing a safe and healthful environment for state employees, protecting the public, and preserving the state's assets and property. To accomplish these objectives, all state agencies, boards, and commissions are directed to participate in the Loss Prevention Program administered by the Office of Risk Management. That program shall assist agencies in controlling hazards and risks in an effort to minimize employee and customer injuries and damage or destruction of state property.

The head of each department, agency, board or commission shall be accountable for compliance with the Loss Prevention Program, including the following:

- One employee shall be appointed to serve as safety coordinator to direct each organization's safety program and act as liaison to the Office of Risk Management;
- Every reasonable effort shall be made to comply with all government regulations pertaining to safety and health issues;
- Employee exposure to all known or suspected occupational health and safety risks shall be reduced as quickly as governmental regulations, technology and economic feasibility allow;
- Controlling and eliminating undesirable risks and hazards shall be given priority when budgeting and financial planning take place;

The State of Louisiana is sincerely interested in each employee's safety. As part of the Loss Prevention Program, all employees of the state shall be made aware of safety rules and how they directly affect their positions and job duties. It is the employee's responsibility to follow the rules of safety as established for their protection and the protection of others.

If everyone works toward these objectives, injuries and costs can be reduced, for the benefit of state employees, their families and co-workers, and the State of Louisiana as a whole.

**Title: SYSTEM OPERATIONAL  
SAFETY PLAN**

**Effective Date: January 3, 2000**

**Cancellation: None**

**Chapter: Miscellaneous**

### **Policy and Procedures Memorandum**

#### **MANAGEMENT SAFETY POLICY STATEMENT**

In accordance with the requirements of the Office of Risk Management and R.S. 39:1543-1544, the Board of Supervisors for the University of Louisiana System is committed to a safe environment for employees and clients of this agency. Safety is not the exclusive responsibility of any one employee. Every employee is responsible for his/her own safety and the safety of those with whom he/she comes in contact. The safety responsibility of each employee is in direct relationship to his or her own operational responsibility.

#### **ASSIGNMENT OF SAFETY RESPONSIBILITY**

Each employee is responsible for periodic self-inspections of his or her area of responsibility and should make appropriate inspection reports as required. Employees should immediately report all accidents resulting in personal injury to their immediate supervisor.

Supervisory personnel should investigate all accidents reported to them and they should complete the required injury/accident report.

#### **PROCEDURES FOR INSPECTION**

Employees are encouraged to regularly inspect their work areas and to identify and report unsafe conditions to their immediate supervisor for corrective action.

#### **PROCEDURES FOR ACCIDENT INVESTIGATION**

When an accident occurs, the immediate supervisor of the accident victim should investigate it as soon as possible. Other levels of management may be involved depending upon the nature and severity of the accident.

#### **PROVISIONS FOR SAFETY MEETINGS**

Safety meetings will be held to discuss any unsafe behavior or activity noted in work areas as a result of safety inspections.

#### **SAFETY RULES FOR THE FACILITY**

Employees will observe the rules and regulations for this facility as promulgated by the Division of Administration Office of Buildings and Grounds.

#### **PROVISION FOR SAFETY TRAINING FOR EMPLOYEES**

Supervisory personnel are responsible for training their employees to perform required tasks in a safe and efficient manner.

#### **RECORD KEEPING PROCEDURES**

Injury reports, first aid logs, inspection reports, hazard control logs, risk reports, minutes of safety meetings, and training records will be retained for at least one year.

#### **FIRST AID PROCEDURES**

Only someone who has completed a certified first aid or emergency response course or someone who has advanced medical training may administer first aid. Management will maintain a file of trained first aid attendants.

## 1.0 INTRODUCTION

### 1.1 Preface

The University of Louisiana at Lafayette is a public research University with high research activity offering a diversity of degrees in eight colleges. These educational colleges are supported with extensive research and public service programs to form a complete and progressive academic environment. The University is housed in some 275 buildings and over 1500 acres of land. It is the mission of the University to promote economic and cultural development, explore solutions to national and world issues, and advance its reputation among its peers.

Although Louisiana State agencies are not required to comply with Federal Occupational Safety and Health Administration (OSHA) regulations, this policy is modeled after and references OSHA, The Louisiana Department of Environmental Quality (LaDEQ), the Louisiana Office of Risk Management (ORM), and other governing agencies whenever possible.

### 1.2 Safety Policy Statement

In order to realize its mission, the University must use its resources to provide an environment that is both safe and secure. This requirement extends to all University employees and to students. Long-term safe practices are created through education and leadership by example. To do this, the University will:

- Assign various safety responsibilities throughout the campus
- Provide a program for inspecting and maintaining its physical facilities
- Conduct safety meetings to increase awareness and remedy unsafe conditions
- Provide safety training to educate people on all issues related to safety
- Develop a campus-wide Emergency Preparedness Plan

Thus, the University will succeed in reducing accidents, hazards, and risk exposure. The Environmental Health and Safety Director is committed to administering this policy. It will serve as a guide for incorporating safe working and learning ethics for all employees and students at the University of Louisiana at Lafayette.

Approved and signed on this 26th day of August, 2015.

President: *Approved and signed by Dr. E. Joseph Savvie, University President, September 2010*

## **1.4 Quick Reference Guide**

The Quick Reference Guide is designed to provide campus employees with readily available information for dealing with hazards. It is not intended to be a substitute for the Environmental Health and Safety Policy, but rather a fast way to get useful information.

This information will be provided to every employee on campus. New employees will be given this information during their formal orientation process and should keep it readily available throughout their employment at the University. All departmental safety coordinators will be trained on the Quick Reference Guide and shall be available to assist employees on its contents (see sections 2.6, 7.3). Finally, the Quick Reference Guide is available for download from the EH&S website at <http://www.safety.louisiana.edu>.

### **Information to be included in the Quick Reference Guide**

- Emergency Contact Sheet
- The UL Lafayette Campus Safety Rules
- Handout on “What to do if you have an accident”
- Sample copy of the Accident Investigation Form (ORM DA-2000)
- Copy of the Motor Vehicle Driver’s Accident Report (ORM DA-2041)

Department Heads and Directors shall also be informed of the purpose and scope of the Quick Reference Guide and how it can be used in performing university business pertaining to safety.

The following pages contain a sample of a University employee Quick Reference packet.

#### Notice for University Employees Regarding Safe Work Practices

*Good safe work ethics are required from every University employee. Any employee who repeatedly commits unsafe acts is a danger to himself or herself and to others around him or her. Once any unsafe condition is discovered, it should be reported to a Departmental Safety Coordinator or supervisor immediately. Departmental supervisors are responsible for initiating corrective action and for ensuring that all employees are trained on how to do these tasks safely.*

## **UL Lafayette General Safety Rules**

*Note: These rules shall be distributed to every university employee as required by the Office of Risk Management. These rules shall also be available for students.*

- Every employee is expected to take responsibility for his or her own safety.
- DO NOT knowingly put yourself in an unsafe working environment.
- Determine who is your Departmental Safety Coordinator – as your supervisor if you are not sure
- Report accidents or any unsafe activity to a Departmental Safety Coordinator or Supervisor.
- Possession or use of any weapons on campus is prohibited by law.
- UL Lafayette is an alcohol and drug free zone. Possession or use of these on campus is prohibited
- Smoking is not allowed in any University building
- Horseplay and fighting are not tolerated on campus.
- Notify your supervisor of any impairment that may reduce your ability to perform tasks in a safe manner.
- Operate equipment only if you are trained and authorized to do so.
- Use Personal Protective Equipment (safety glasses, ear protection, etc) to protect yourself from hazards
- Keep an orderly work environment. Pay close attention to hazards that can cause slips, trips, or falls.
- Store flammables, hazardous materials, and hazardous waste in appropriate containers.
- Bend your knees when lifting objects. DO NOT bend your back when lifting objects.
- Fasten safety belts before starting any motor vehicle.
- Additional safety procedures and policies may be applicable for certain departments. Consult your Departmental Safety Coordinator or the EH & S Policy for more information on these. If you do not know who your Departmental Safety Coordinator is, contact the EH & S office at 482-5357.

## **1.5 Emergency Information Floor Plan**

Emergency Information Floor Plans have been posted in every building. These documents are located in the high-traffic areas for ease of reference (i.e. the intersection of two hallways). University employees should familiarize themselves with the information listed on the Emergency Information Floor Plan, which includes:

- Proper fire and emergency evacuation route(s)
- The point of assembly for all evacuees after exiting the building
- Location of the fire extinguishers
- Location of the Fire Alarm activation devices (pull stations)
- Any ADA approved facilitates in the building (if applicable)

Departmental Safety Coordinators shall check to ensure that these floor plans are posted during their quarterly building safety inspections (see section 3). To obtain a copy of any Emergency Information Floor Plan, contact the EH&S office at 482-5357 or [safetyman@louisiana.edu](mailto:safetyman@louisiana.edu).

The following page contains an example of this floor plan for the first floor in Martin Hall.

**TO OBTAIN A COPY OF ANY EMERGENCY FLOOR PLAN, CONTACT THE EH & S OFFICE AT 482-1840 OR [safetyman@louisiana.edu](mailto:safetyman@louisiana.edu)**

## **1.6 Policy Compliance Statements and Evaluation**

The University of Louisiana at Lafayette is an Equal Opportunity Employer. This policy complies with the regulations set forth by The Louisiana Department of Administration, Office of Risk Management Loss Prevention Unit. The EH &S office and/or the UL Lafayette Campus-Wide Safety Committee shall review this document yearly and, if necessary, revisions for this policy shall be implemented accordingly (see section 2.9). Also, the policies and procedures listed in this manual are subject to a yearly external audit by the Louisiana Department of Administration, Office of Risk Management Loss Prevention Unit as described in Senate Bill no. 116 (Act 11) from the First Extraordinary Session, 1999.
