## Graduate Degrees

With your passion for knowledge and excitement for exploring the unknown, earning your master's or doctoral degree is the next step in your career or scholarly pursuits.

Our graduate programs hone your professional skills while challenging you to think critically and to do research. We offer degrees and certificates in disciplines that span the arts, liberal arts, sciences, education, and more. A number of our graduate programs offer online components to fit your busy life and schedule—a few are even offered exclusively online.

In grad school, you will master the tools you need to succeed while increasing your earning potential. We offer opportunities for our students to ensure they have the means and funds to complete their programs through assistantships and fellowships. [Learn more about available financial support.](#)

But most of all, we're here to help you pursue your passion, so you can learn more than you ever imagined. [Apply today](#) or [contact us](#) with questions.

## Graduate Program Application Requirements and Deadlines at a Glance

While the Graduate School requires a number of items for admission, some of our programs request additional supplemental items and have different application deadlines. The program table below outlines each department's program-specific materials and deadlines (if any). You'll also find contact information for your graduate coordinator, who is a great resource for specific funding and departmental questions.
