Graduate Student Computer Lab

As a service to the University's graduate students, the Library provides a graduate study room equipped with 6 computers. This room provides a quiet atmosphere for graduate students. The computers offer the same programs that are available on the STEP Lab computers. Students must log on with their ULID and password. The computers are networked to the printers located in the STEP Lab on the 1st Floor

To use the room, inquire at the Circulation Desk. An assistant will bring a key to unlock the room for the student. Graduate Student Computer Lab users are expected to comply with the [University's Computer & Network Policy](#).
