Hi Gina.
This article is available in ABI/Inform in the journal *Manager*. I've included a link to it: http://ezproxy.ucs.louisiana.edu:2048/login?url=https:
//search.proquest.com/docview/224622057?accountid=14566. To access it, enter your ULID and password at the database authentication screen.

If you need further assistance, please let me know.

Heather

Subject: cannot find article in database

I was told to search for:
Fayol, H. (2000). Managing in the 21st century. The British Journal of Administrative Management, (18), 8-10.   Available through the University library's
ABI/INFORM online database.

I have searched the ABI/INFORM database multiple times and I am unable to locate this article.

Can you please help me to get this article. It is much appreciated.

Thank you,
Gina Campbell
