Environmental Health and Safety

Re: Attached SDS Sheet

Our records indicate that your department has recently received the following chemicals:

- 1. 1,4-Butanediol (Jovan Tatar)**
- 2. Acetonitrile (Jovan Tatar)**
- 3. 2-Butanone (Jovan Tatar)**
- 4. Toluene-2,4-diisocyanate (Jovan Tatar)**

According to the attached SDS sheet, this chemical can be extremely dangerous and may require special handling, storage, usage, and/or disposal. Please ensure that all employees and students responsible for using this chemical have sufficient knowledge of the dangers and precautions for use. Information concerning this can be obtained by the MSDS sheet, by contacting the manufacturer/distributor of the chemical or the University Cameo Chemical Database. Please contact our office at x21840 or taz@louisiana.edu with any questions you may have. Thanks much for your consideration.
