### Welcome

ATMAE is an exciting, professional association with more than 1,000 innovative members who share technology, management and applied engineering ideas, research, and applications that positively impact the future. Since 1967 ATMAE members, who are college and university educators, administrators, students, and industry professionals, have been dedicated to solving complex technological problems and developing the competitive technologist and applied engineering workforce. We do this through specialized accreditation for 2-year, 4-year, and master's degree programs, personal certifications, an annual national conference, publications, awards and scholarships, career center, a website filled with valuable content, and numerous opportunities to develop professionally.

Through its committed members and outstanding programs, ATMAE serves as the premier leader in developing technology, management, and applied engineering disciplines in academia and industry. [Join today!](#)
