910	i = imputed. NA = not available; data were not provided by institution.								
911	^a Johns Hopkins University includes the Applied Physics Laboratory, with \$1,403,733 thousand in total R&D expenditures in FY 2016.								
912	NOTES: Institutions are included in the short form population if they reported less than \$1 million in total R&D expenditures during the previous fiscal year. Tied institutions are ranked alphabetically. Institutions ranked are geographically separate campuses headed by a campus-level president or chancellor. Some campuses are part of large multi-campus universities; some are part of state university systems. For a complete listing of campuses that belong to a larger university or system and their aggregate R&D expenditures, see table 6.
