Setting The Standard Worldwide

We are a nonprofit, non-governmental agency that accredits programs in applied and natural science, computing, engineering and engineering technology.

ABET accreditation provides assurance that a college or university program meets the quality standards of the profession for which that program prepares graduates.

We accredit programs, not institutions. We provide specialized accreditation for post-secondary programs within degree-granting institutions already recognized by national or regional institutional accreditation agencies or national education authorities worldwide.

Our accreditation is voluntary, and to date, 4,005 programs at 793 colleges and universities in 32 countries have received ABET accreditation. Over 100,000 students graduate from ABET-accredited programs each year, and millions of graduates have received degrees from ABET-accredited programs since 1932.

ABET accreditation is ISO 9001:2015 certified, making us one of only two accrediting agencies in the U.S., and one of the few worldwide, to receive this distinction.

Accreditation Commissions

The ABET Accreditation process is carried out by our four [accreditation commissions](#). Each commission sets accreditation standards for specific program areas and degree levels. For more information about the commissions, including the differences between Engineering and Engineering Technology, please visit [this page](#).

Applied and Natural
Science Accreditation
Commission
(ANSAC)

Programs:

Applied and Natural Science

Levels:

Associate, Bachelor, Master

Computing
Accreditation
Commission (CAC)

Programs:

Computing

Level:

Bachelor

Engineering
Accreditation
Commission (EAC)

Programs:

Engineering

Levels:

Bachelor, Master

Engineering
Technology
Accreditation
Commission (ETAC)

Programs:

Engineering Technology

Levels:

Associate, Bachelor

To date, ABET has accredited 4,005 applied and natural science, computing, engineering and engineering technology programs at 793 colleges and universities in 32 countries worldwide.

[Learn More](#)

Accreditation Step by Step

Programs new to accreditation have a required Readiness Review 12–18 months before the on-site visit. Requests for Evaluation are due by 1/31 and Self-Study Reports 7/1, the year of the on-site visit.

Accreditation Outside the U.S.

While our accreditation process for programs outside the United States is identical to the [process for programs within the U.S.](#), there are different logistical requirements international programs should take into account.
