

# 2017-2018 Assessment Cycle ARTS\_Institute for Traditional Music

## Mission (due 12/4/17)

### University Mission

The University of Louisiana at Lafayette offers an exceptional education informed by diverse worldviews grounded in tradition, heritage, and culture. We develop leaders and innovators who advance knowledge, cultivate aesthetic sensibility, and improve the human condition.

### University Values

We strive to create a community of leaders and innovators in an environment that fosters a desire to advance and disseminate knowledge. We support the mission of the university by actualizing our core values of equity, integrity, intellectual curiosity, creativity, tradition, transparency, respect, collaboration, pluralism, and sustainability.

### University Vision

We strive to be included in the top 25% of our peer institutions by 2020, improving our national and international status and recognition.

### College / VP and Program / Department Mission

#### Mission of College or VP-area

*Provide the mission for the College or VP-area in the space provided. If none is available, write "None Available in 2017-2018."*

Mission: The College of the Arts prepares students to be creative, critical and responsive professionals through our fine arts, design and performance programs. We serve our students and communities by means of collaborative, experiential, innovative, and globally relevant learning opportunities and partnerships.

Vision: The College of the Arts seeks to create a bridge between the arts and cultures of the world and the unique context and traditions of Acadiana.

1. Values:

2. We are passionate about delivering exceptional teaching and mentoring, supported by faculty research and creative activity.

3. We foster individual as well as collaborative initiatives in the arts, among the arts, and with other disciplines.

4. We encourage teaching and learning rooted in traditional approaches and integrating evolving concepts and technologies.

5. We strive to attract, build and celebrate a diverse body of students, faculty and staff.

6. We enhance the cultural, civic and artistic environment of Lafayette, Acadiana, and all of Louisiana through community engagements of students, faculty and alumni.

7. We seek to achieve the highest standards of professionalism in all that we produce.

#### Mission of Program / Department

*Provide the program / department mission in the space provided. The mission statement should concisely define the purpose, functions, and key constituents. If none is available, write "None Available in 2017-2018."*

The mission of the Institute for Traditional Music is to stimulate interdisciplinary research on the foundations and diversity of traditional music worldwide and to advance the preservation, instruction, and performance of traditional music with an emphasis on traditions that have developed in Acadiana.

### Program / Department Assessment Narrative

The primary purpose of assessment is to use data to inform decisions and improve programs (student learning) and departments (operations); this is an on-going process of defining goals and expectations, collecting results, analyzing data, comparing current and past results and initiatives, and making decisions based on these reflections. In the space below, describe the program's or department's overall plan for improving student learning and/or operations (the "assessment plan"). Consider the following:

- 1) What strategies exist to assess the outcomes?
- 2) What does the program/department expect to achieve with the goals and objectives identified above?
- 3) How might prior or current initiatives (improvements) influence the anticipated outcomes this year?
- 4) What is the plan for using data to improve student learning and/or operations?
- 5) How will data be shared within the Program/Department (and, where appropriate, the College/VP-area)?

### Assessment Process

We keep records that allow us to report on measures, including number of courses taught, enrollment, number of public programs, and program attendance. With these goals and objectives, we expect to achieve the Institute's mission, especially the part that addresses "the preservation, instruction, and performance of traditional music with an emphasis on traditions that have developed in Acadiana." We build on prior initiatives each year, especially partnerships with other units within the university (Center for Louisiana Studies, Alumni Association) as well as with community partners.

Direct - Number of courses offered (Other)	Has the criterion 24 courses total for the academic year been met yet? Met	34 courses were offered in 2017-18 with enrollment greater than zero.	CurriculumFindings2017_18_EndOfYear.pdf	- Curricular Change : MUS 329 Beginning Accordion and MUS 331 French Vocals did not make in Fall 2017, and looking ahead I already know that the situation is even worse for group applied instruction (MUS 327, 329, 331) for Fall 2018. We will need to look at	

					making these courses count for the ARTS General Education requirement in order to boost enrollment. We may also want to look at offering a UNIV 100 course that incorporates some hands-on exposure to Cajun and Creole music, to stimulate interest in the program among first-year students.
	Direct - Number of students enrolled (Other)	Has the criterion 204 students enrolled in traditional music curriculum total for the academic year. been met yet? Not met	199 students enrolled in traditional music courses in 2017-18.	CurriculumFindings2017_18_EndOfYear.pdf	- Assessment Process: Targets / Criteria for Success changed: This criterion was nearly met. Expectations for enrollments in some of the classes, especially the songwriting class, were probably set too high. If the target for that class were set to 10 instead of

					17, we would have achieved the overall target.

**Reflection (Due 9/15/18)**

**Reflection**

The primary purpose of assessment is to use data to inform decisions and improve programs and operations; this is an on-going process of defining goals and expectations, collecting results, analyzing data, comparing current and past results and initiatives, and making decisions based on these reflections. Recalling this purpose, respond to the questions below.

**1) How were assessment results shared in the program / department?**

*Please select all that apply. If "other", please use the text box to elaborate.*

- Distributed via email (selected)
- Presented formally at staff / department / committee meetings
- Discussed informally
- Other (explain in text box below) (selected)

I have no direct reports other than adjunct faculty, and I don't see the need to share these results with them. The only people that need to see them are higher in the academic hierarchy, such as my chair and my dean, and I assume that they can see what I submit in LiveText anytime they want.

**2) How frequently were assessment results shared?**

- Frequently (>4 times per cycle)
- Periodically (2-4 times per cycle)
- Once per cycle (selected)
- Results were not shared this cycle

**3) With whom were assessment results shared?**

*Please select all that apply.*

Department Head (selected)

Dean / Asst. or Assoc. Dean

Departmental assessment committee

Other faculty / staff

**4) Consider the impact of prior applied changes. Specifically, compare current results to previous results to evaluate the impact of a previously reported change. Demonstrate how the use of results improved student learning and/or operations.**

Past resolve to improve publicity for class offerings in order to increase enrollment has not helped, hence a new plan this year to try using ARTS Gen Ed credit as an inducement.

Past resolve to allocate more time to grant-writing and fundraising has also come to nought. There aren't enough hours in the day. It takes all the time I have just to spend the budget I have, especially with the big increase we got for 2018-19. So without an additional 0.5 FTE admin staff, no more growth is possible.

**5) Over the past three assessment cycles, what has been the overall impact of "closing the loop"? Provide examples of improvements in student learning, program quality, or department operations that are directly linked to assessment data and follow-up analysis.**

I have nothing to report except what I said in response to question #4, that upon reviewing past cycles it has become clear that some things are not working and require a different approach going forward.
