REGISTRAR OFFICE

Department Name: Sociology/Anthropology/Child and Family Studies Effective Term and Year: Fall 2019

Program Name: Sociology [X] Existing Program [] New Program [] Proposed Program not yet approved by the BoR

Justification: Many undergraduate Sociology majors intend to work in the social services or to attend graduate school in social work. This course will expose the student to a range of activities associated with 1) applied social research that occurs in the context of contracted relationship with community and non-profit organizations, 2) the development and implementation of interventions in clinical settings, and 3) approaches to social work (psychosocial, person-centered, crisis intervention, etc.) for working with different clientele (children, disabled, elderly, etc.).

Comment on present and future availability of faculty, equipment, and other resources needed for this course: Existing faculty who engage in applied social research and/or clinical sociology or social work include two full professors and two full time instructors.

Will this impact other Departments? [] Yes [X] No If yes, which department? Do any other departments currently offer courses which may overlap this new course? [] Yes [X] No If yes, does that department agree that there is no significant conflict or overlap in coverage? [] Yes [] No Department/individual Consulted:
