### Administrative Account

Thu, 02/19/2015 - 9:34am -- David Savoie  
 Administrator rights are typically reserved for University Computing Services (UCS) personnel who are responsible for providing administrative services such as system maintenance and user support.

The IT Security Officer and UCSS reserve the right to disable these accounts at any time. Upon suspicion of policy violations UCSS disables the account and will work with the Director to resolve any issues. These Accounts will expire yearly and will require you to come back to this form to renew and to accept any new policies.

## ArcGIS for Desktop

Mon, 04/14/2014 - 3:45pm -- David Savoie  
Increase understanding and improve decision-making using powerful modeling and analysis tools. Simplify data design, input, and cleanup with advanced editing capabilities. Automate many aspects of cartography, making intelligent map production a less time-consuming task.
