Strategic Plan

2015-2020

Our strategic plan is borne out of the recognition that this is the time—a time of transition and of opportunity—in which we are ideally suited to celebrate our traditions and strengths, acknowledge our challenges, and intentionally pursue the transformation to distinction of which we are imminently capable.

Our Four Strategic Imperatives

1. Faculty: Create a stimulating academic environment supported by the latest innovations in technology and informed by best practices, in which faculty members can realize their full potential as educators and scholars.
2. Students: Cultivate a student body that is intellectually curious and civically engaged by developing an infrastructure that ensures student success.
3. Research: Foster a stimulating academic environment for all members of the university community that supports the development and advancement of knowledge and creative works.
4. Governance: Institute a system for shared governance based on trust, collaboration, and continuous improvement.
