Inspired by the leadership and vision of Kathleen Babineaux Blanco, Governor of Louisiana (2004-2008), the University of Louisiana at Lafayette has created the Kathleen Babineaux Blanco Public Policy Center (Blanco Center). The Blanco Center is an independent, interdisciplinary research center, bringing together experts from different academic departments to conduct research, analyze data, create white papers and write grants. The Blanco Center, which is a partnership between the College of Liberal Arts and the Edith Garland Dupre Library, will work primarily in the public policy areas emphasized by Governor Blanco during her long and distinguished career in state government. These include governmental ethics, criminal justice reform, poverty and economic opportunity, and education. The Blanco Center aims to provide policymakers and the public with the

information necessary to improve lives and communities all across Louisiana. With this in mind, a special interest of the Center is promoting and expanding the role of women in politics and providing training for community leaders and elected officials. The Kathleen Babineaux Blanco Public Policy Center serves the public interest through leadership in state and local policy.
