	Direct - Capstone Assignment	100% of Hospitality Management students enrolled in the HMGT 452- Applied Quantity Foods should not exceed the food purchasing budget of \$325 for an event. Each student is allocated a \$325 budget and is expected to run their operation within these parameters. At the end of each student's rotation, expenses were paid and likewise compared against their respective budgets.	

Program / Department Assessment Narrative

The primary purpose of assessment is to use data to inform decisions and improve programs (student learning) and departments (operations); this is an on-going process of defining goals and expectations, collecting results, analyzing data, comparing current and past results and initiatives, and making decisions based on these reflections. In the space below, describe the program's or department's overall plan for improving student learning and/or operations (the "assessment plan"). Consider the following:

- 1) What strategies exist to assess the outcomes?
- 2) What does the program/department expect to achieve with the goals and objectives identified above?
- 3) How might prior or current initiatives (improvements) influence the anticipated outcomes this year?
- 4) What is the plan for using data to improve student learning and/or operations?
- 5) How will data be shared within the Program/Department (and, where appropriate, the College/VP-area)?

Assessment Process

In following the program's mission of preparing students to be leaders in the management of hospitality businesses by providing core competencies and experiential learning opportunities, Lunch Club affords students the opportunity. Students are being assessed on budgeting, customer service and cost controls; these are core competencies of operating a hospitality business. Assessment is conducted in the capstone course therefore if students are not reaching goals, teaching modifications can be made in lower level courses prior to students completing HMGT 451. Each new semester, the customer reviews, budget and cost control are evaluated by the instructor and incorporated in training before the restaurant is opened for the semester. The results will be distributed to the 3 HMGT faculty and department head for analysis each year.

Reflection (Due 9/15/18)

Reflection

The primary purpose of assessment is to use data to inform decisions and improve programs and operations; this is an on-going process of defining goals and expectations, collecting results, analyzing data, comparing current and past results and initiatives, and making decisions based on these reflections. Recalling this purpose, respond to the questions below.

1) How were assessment results shared in the program / department?

Please select all that apply. If "other", please use the text box to elaborate.

Distributed via email (selected)

Presented formally at staff / department / committee meetings

Discussed informally

Other (explain in text box below) (selected)

Results will be submitted with our annual ACPHA accreditation report in December of each year. (Accreditation Commission for Programs in Hospitality Administration)

2) How frequently were assessment results shared?

Frequently (>4 times per cycle)

Periodically (2-4 times per cycle)

Once per cycle (selected)

Results were not shared this cycle

3) With whom were assessment results shared?

Please select all that apply.

Department Head

Dean / Asst. or Assoc. Dean (selected)

Departmental assessment committee (selected)

Other faculty / staff (selected)

4) Consider the impact of prior applied changes. Specifically, compare current results to previous results to evaluate the impact of a previously reported change. Demonstrate how the use of results improved student learning and/or operations.

Continued to ensure students were given proper tools and training to achieve success based on industry standards.

5) Over the past three assessment cycles, what has been the overall impact of "closing the loop"? Provide

examples of improvements in student learning, program quality, or department operations that are directly linked to assessment data and follow-up analysis.

Students are doing well following the guidelines provided and working within their means to run a success food service operation.
