

2017-2018 Assessment Cycle PRES_Athletics

Mission (due 12/4/17)

University Mission

The University of Louisiana at Lafayette offers an exceptional education informed by diverse worldviews grounded in tradition, heritage, and culture. We develop leaders and innovators who advance knowledge, cultivate aesthetic sensibility, and improve the human condition.

University Values

We strive to create a community of leaders and innovators in an environment that fosters a desire to advance and disseminate knowledge. We support the mission of the university by actualizing our core values of equity, integrity, intellectual curiosity, creativity, tradition, transparency, respect, collaboration, pluralism, and sustainability.

University Vision

We strive to be included in the top 25% of our peer institutions by 2020, improving our national and international status and recognition.

College / VP and Program / Department Mission

Mission of College or VP-area

Provide the mission for the College or VP-area in the space provided. If none is available, write "None Available in 2017-2018."

To inspire champions and prepare leaders by fostering an environment which enables student--athletes to realize personal, academic and athletic aspirations.

Mission of Program / Department

Provide the program / department mission in the space provided. The mission statement should concisely define the purpose, functions, and key constituents. If none is available, write "None Available in 2017-2018."

The Athletics Department embodies the diverse culture that is our community, and recognizes the responsibility we have to maintain the highest standards of character. We are committed to the academic, athletic, and social development of student--athletes, instilling values of integrity, service, and competitive success.

Attachment (optional)

Upload any documents which support the program / department assessment process.

Program / Department Assessment Narrative

The primary purpose of assessment is to use data to inform decisions and improve programs (student learning) and departments (operations); this is an on-going process of defining goals and expectations, collecting results, analyzing data, comparing current and past results and initiatives, and making decisions based on these reflections. In the space below, describe the program's or department's overall plan for improving student learning and/or operations (the "assessment plan"). Consider the following:

- 1) What strategies exist to assess the outcomes?
- 2) What does the program/department expect to achieve with the goals and objectives identified above?
- 3) How might prior or current initiatives (improvements) influence the anticipated outcomes this year?
- 4) What is the plan for using data to improve student learning and/or operations?
- 5) How will data be shared within the Program/Department (and, where appropriate, the College/VP-area)?

			<p>event representing 5 out of 6 male sports. Throughout the Fall 2017 semester Acadiana Karate hosted 4 out of 6 female sports. Acadiana Karate conducted self-defense training and emphasized the importance of being able to protect yourself and how to avoid compromising situations. In September a Resumé Clinic and Student-Athlete Career Fair were held for all student-athletes. The Student-Athlete Career Fair was mandatory for all Junior and Senior student-athletes and allowed student-athletes the opportunity to meet with 29 different employers to get information about internships, part-time</p>	
--	--	--	---	--

			<p>employment, full-time employment and postgraduate options. The Student-Athlete Career Fair also provided the opportunity for student-athletes to have a LinkedIn headshot taken, sign-up for LinkedIn and conduct mock interviews. Finally, the opportunity was provided to all student-athletes to attend Lori Hart's presentation on "You Be You". 142 student-athletes attended the presentation and all sports were represented.</p> <p>(1b) January 2018 began the Coping with the Challenge of Change component of the Geaux Cajuns Program. The first program focused on self-discovery. During the</p>	
--	--	--	---	--

			<p>week of February 5th to 9th, coaches, staff and student-athletes completed a DiSC Assessment and participated in a Workshop hosted by four-time Olympian Bo Hanson from Athlete Assessment. The goal of the program was to increase self-awareness in order for our department to be their best, increase their understanding of their teammates and colleagues and apply these skills to improve communication, teamwork, team chemistry and ultimately win championships. The second program focused on self-esteem and mental health. Hollis Conway shared mental</p>		
--	--	--	---	--	--

			<p>strategies with the student-athletes that will help them build a championship mindset and overcome obstacles and behaviors that may prevent them from being successful. On-campus resources for counseling and mental health awareness were shared with student-athletes as well as Sun Belt Conference wristbands with the hashtag #StrongAintWrong. Finally during the week of April 9th to 15th, the Geaux Cajuns Program promoted the Sun Belt Conference wide initiative on Mental Health. The Sun Belt Conference Mental Health Initiative was developed to educate and bring awareness to</p>	
--	--	--	---	--

			<p>student-athletes about what mental health consists of and what resources are available to student-athletes on an institutional level and national level. (1c) Following Greg Saloom's presentation, the 207 student-athletes that attended were sent an online evaluation. 11 student-athletes responded. Due to the low response rate it was determined that one Geaux Cajuns Program Survey would be sent out at the end of the academic year. This survey yielded 26 responses in regards to Greg Saloom's presentation of which 69% indicated they were either satisfied or very satisfied with his</p>	
--	--	--	--	--

			<p>presentation and the remaining 31% indicating a neutral response. The Geaux Cajuns Program Survey had 18 student-athletes respond in regards to the Student-Athlete Career Fair. Feedback was also gathered from the SAAC about the Student-Athlete Career Fair and their main response was that they would like to see a greater variety of employers present. 83.33% of student-athletes surveyed indicated that they were either satisfied or very satisfied with the Self Defense Training at Acadiana Karate with many indicating that they felt they learned how to defend themselves</p>

Two teams posted their highest recorded team semester GPA; Women's Cross Country (3.803) and Men's Golf (3.554). Seven programs achieved above a 3.1 GPA for the academic year; women's cross country (3.778), men's golf (3.406), women's soccer (3.381), women's tennis</p>	<p>renovations, improvements and relocation of Student-Athlete Academic Services to the third floor of the library. Although there was significant academic improvement from Fall 2016 to Fall 2017, we saw a decrease in results from Spring 2017 to Spring 2018. The growth of the Student-Athlete Academic Services staff and hiring of Philip Pinkston will devote a full-time position to work specifically with football. Previously, Christy Alford, Assistant Director of Athletics for Student-Athlete Academic Services was managing her time between running the Student-Athlete</p>

		<p>(3.307), softball (3.165), men's tennis (3.153) and men's cross country (3.133). Together 397 student-athletes achieved an average GPA of 2.896 of which 148 student-athletes (37.2%) achieved a 3.0 or higher GPA and 13 student-athletes achieve a perfect 4.0 in the 2017-18 academic year. Women's cross country posted the highest GPA in the Sun Belt Conference for the 2017-18 academic year. (2c) University of Louisiana at Lafayette student-athletes are graduating at a rate of 62 percent according to the most current 4-year Federal Graduation Rate. This is the second highest rate of graduation among student-athletes in the state's 11 Division I public institutions and the sixth highest rate among student-athletes in the Sun Belt Conference. (2d) All sixteen UL teams competing at the NCAA Division I level</p>	<p>Academic Services and monitoring football student-athletes. This increased attention on football should assist in increasing their APR to above a 960 as well as their overall GPA. The Learning Specialist has increased participation in the Get AMPed Mentor Program to 15 out of 16 teams for 2018-19. Student-Athlete Academic Services has been relocated to a brand new facility on the third floor of the library. This allows easier access for student-athletes as well as an enhanced learning environment . The updated facility includes private tutor</p>

			<p>scored above the minimum NCAA Academic Performance Rate score required for the 2016-17 academic year (930 multi-year score). Due to the fact that all teams at the University of Louisiana at Lafayette have a multi-year APR score of 930 or higher, no teams were required to create an academic improvement plan this year per NCAA requirements. (2e) The Student-Athlete Academic Center continued to enhance their academic services provided to student-athletes. 12 out of 16 sports utilized the Get AMPed Mentor Program in 2017-18 which served 137 total student-athletes with 15 mentors. 57% of student-athletes using the Get AMPed Mentor Program saw an increase in their GPA. BASELINE was administered to 30 football</p>		<p>rooms, a smart classroom, new computer lab and individual study carousels. The Student-Athlete Academic Services Staff is located within the facility versus down the hall, allowing them direct access to all student-athletes.</p>

			<p>student-athletes, 10 women's basketball student-athletes, 3 men's basketball student-athletes and 3 baseball student-athletes. BASELINE results determined testing for 6 student-athletes with Julie Spedale, an Educational Diagnostician, in order to acquire accommodations through the university. The Student-Athlete Academic Center maintained a partnership with UL's Psychology department, which enables the department to receive a full comprehensive, psycho-educational assessment of some of the most at-risk student-athletes. This could include learning disability or attention deficit diagnosis; it also enables student-athletes to acquire a prescription if necessary. 10 student-athletes</p>

Reflection (Due 9/15/18)

Reflection

The primary purpose of assessment is to use data to inform decisions and improve programs and operations; this is an on-going process of defining goals and expectations, collecting results, analyzing data, comparing current and past results and initiatives, and making decisions based on these reflections. Recalling this purpose, respond to the questions below.

1) How were assessment results shared in the program / department?

Please select all that apply. If "other", please use the text box to elaborate.

Distributed via email (selected)

Presented formally at staff / department / committee meetings (selected)

Discussed informally (selected)

Other (explain in text box below)

2) How frequently were assessment results shared?

Frequently (>4 times per cycle) (selected)

Periodically (2-4 times per cycle)

Once per cycle

Results were not shared this cycle

3) With whom were assessment results shared?

Please select all that apply.

Department Head (selected)

Dean / Asst. or Assoc. Dean

Departmental assessment committee

Other faculty / staff (selected)

4) Consider the impact of prior applied changes. Specifically, compare current results to previous results to evaluate the impact of a previously reported change. Demonstrate how the use of results improved student learning and/or operations.

The Department saw considerable improvement in all three goals as a result of applied changes. Specifically the department noted the following:

a) Goal #1 – Student-athlete attendance rates improved at all Geaux Cajuns Program events due to increased buy-in and communication with student-athletes, coaches and staff. Many events saw attendance rates of 75% or higher. 7,201 community service hours were recorded for 2017-18, the highest on record as well as an increase in Student-Athlete Advisory Committee Meeting attendance. 96 student-athletes provided feedback through the Geaux Cajuns Program Survey allowing Geaux Cajuns Program Staff to better prepare for 2018-19 events.

b) Goal #2 – Significant increase in academic success from Fall 2016 to Fall 2017. Unfortunately we saw a decrease in academic success from Spring 2017 to Spring 2018. Additional staff members will allow us to work towards our goal of a 3.10 GPA. APR benchmarks will be monitored more accurately by the Compliance Staff and provide timely updates to coaching staff after the Fall semester. Student-athlete academic services will continue to enhance the goal of prioritizing academic excellence for all student-athletes through enhanced facilities and services.

c) Goal #3 – Overall response rate on Exit Interviews increased by 15.5 percent from 2016-17 to 2017-18 with six sports programs having 100 percent response rate. This information increases the Department's understanding of student-athlete satisfaction and is used to enhance the student-athletes' overall collegiate experience.

5) Over the past three assessment cycles, what has been the overall impact of "closing the loop"? Provide examples of improvements in student learning, program quality, or department operations that are directly linked to assessment data and follow-up analysis.

The Athletic Department has learned the following through “closing the loop”:

- a) In order to enhance the quality of the student-athlete experience within the context of higher education we must communicate with the student-athletes directly to determine their needs and goals. Student-Athlete Advisory Committee driven initiatives and events tend to have a higher attendance rate as well as a higher satisfaction rate. By “closing the loop” with the Geaux Cajuns Program Survey we can continue to enhance their experience and provide meaningful programming topics, educational opportunities and service projects.
- b) Student learning and academic opportunities have continued to be enhanced through the Get AMPed Program and BASELINE Assessment Testing. We will continue to prioritize academic excellence for all student-athletes and communicate academic shortcomings with coaches, staff and the University Athletics Committee. There will be an increase emphasis on timely APR updates, academic updates and increasing the Federal Graduation Rate.
- c) The Department has been effective at following through with providing exit interview findings in the coaches’ evaluations. This has brought about positive change in different areas of the department.
